

ENCHANTING LIFE UNLEASHED

Moon Cycle **Life Planner**

◆ 2026 ◆

Work with the moon. Transform your life.

WELCOME

You Are Lunar Magic.

You were born to move in cycles — not straight lines. The hustle culture lied to you. Consistent pushing doesn't lead to consistent results. But moving with intention, with rhythm, with the wisdom of the cosmos? That does.

- ◆ **THE MOON**
Your celestial guide. The moon moves through 8 distinct phases every 29.5 days, each carrying a unique energetic signature. When you align your actions with these phases, you stop fighting the current — and start riding it.
- ◆ **THIS PLANNER**
A full-year companion for working with the moon's natural rhythm. Each month includes phase worksheets, a full moon ritual, new moon intention setting, and weekly planning pages tied to actual lunar dates.
- ◆ **HOW TO USE IT**
Start at the monthly overview to understand the moon's energy for the month. Then follow the weekly pages through each phase. Use the worksheets to reflect, release, and reset. There are no wrong answers — only honest ones.
- ◆ **THE MAGIC**
The moon doesn't make things happen for you — she illuminates what's already there. The intention you set. The courage you've been gathering. The dream you haven't spoken yet. This planner is the space where that becomes real.

She dances with the moon and calls it strategy.

How This Planner Works

Each lunar month cycles through 8 phases. Each phase has a distinct energy — and a distinct purpose in your planning practice.

New Moon · Days 1–3

Set your intention. Plant your seed. Write your vision. This is the most potent time for new beginnings, fresh starts, and bold declarations.

Waxing Crescent · Days 3–7

Take action. Build momentum. The sliver of light grows — your intentions need movement to manifest. Act before you feel ready.

First Quarter · Days 7–10

Face the challenge. Make the decision. Resistance is normal. Push through. Friction is fuel, not failure.

Waxing Gibbous · Days 10–13

Refine and trust. You're almost at peak power. Make small adjustments. Don't undo your progress with perfectionism.

Full Moon · Day 14–15

Celebrate and release. Peak illumination. Honor your progress. Let go of what blocks your next level.

Waning Gibbous · Days 15–19

Integrate and share. Harvest the lessons. Practice gratitude. Share your wisdom generously.

Last Quarter · Days 19–22

Forgive and complete. Tie up loose ends. Forgive yourself and others. Completion creates space for creation.

Waning Crescent · Days 22–29

Rest and renew. The void before rebirth. Your magic regenerates in the dark. Rest is sacred, not lazy.

YOUR COSMIC ROADMAP

The 8 Moon Phases

Each phase carries distinct energy. Work with the moon's natural rhythm and you'll find yourself more aligned, more intentional, and more powerful than you ever imagined.

MOON PHASE

NEW MOON

Intentions · Beginnings · Planting Seeds

ENERGY

The New Moon marks the beginning of the lunar cycle. In darkness, seeds germinate. This is a time of quiet power — setting intentions, planting seeds, and visualizing what you want to call into being. The slate is wiped clean. What will you write on it?

YOUR FOCUS

Intention-setting. Vision. Beginning. Ask: What do I want to create this cycle? Write it down with clarity and emotion. The New Moon is a portal, not a performance.

SIMPLE RITUAL

In the dark or by candlelight, write your intentions. Be specific. Be bold. Say aloud: *'I plant this intention with faith. The universe conspires in my favor.'*

AFFIRMATION

"In the darkness, seeds germinate."

MOON PHASE

WAXING CRESCENT

Momentum · Action · First Steps

ENERGY

The sliver of light grows. Energy builds. This is the phase of beginnings gaining traction — the first steps, the first actions, the first momentum. What you started at the New Moon is now asking for movement.

YOUR FOCUS

Take the first concrete action toward your intention. Clarity through doing, not planning. Break your intention into one small, visible step and take it today.

SIMPLE RITUAL

Write one action you can take today. Say: *'I take this step in faith. My intention grows.'* Then take it.

AFFIRMATION

"The journey of a thousand miles begins with a single step taken in the direction of the moon."

MOON PHASE

FIRST QUARTER

Decisions · Commitment · Push Through

ENERGY

The moon is half-illuminated — and so are you. Resistance shows up. Doubt creeps in. Obstacles appear. This is completely normal. The universe is testing your commitment. First Quarter energy is friction. But friction isn't failure — it's fuel.

YOUR FOCUS

Face the friction. Make the decision. What choice is being asked of you? What boundary needs to be set? Choose your intention over your fear.

SIMPLE RITUAL

Hold a stone. Visualize the obstacle you're facing. Say: *'I am stronger than this resistance. I choose my intention over my fear.'* Carry the stone as a reminder.

AFFIRMATION

"Friction is not failure — it's fuel."

MOON PHASE

WAXING GIBBOUS

Refinement · Trust · Almost There

ENERGY

The moon is almost full — you can feel the peak approaching. This is the final push before manifestation. Energy supports editing, optimizing, and trusting that what you've built is coming together. Refine, yes. But don't undo your progress with perfectionism.

YOUR FOCUS

What needs fine-tuning? Where can you make small adjustments without overhauling everything? Trust. The magic is already working. Don't sabotage it with doubt.

SIMPLE RITUAL

Stand outside if possible. Place hands on heart. Say: *'I trust divine timing. I refine without obsessing. The magic is already working.'* Take three deep breaths.

AFFIRMATION

"Almost there. Trust the timing."

MOON PHASE

FULL MOON

Illumination · Celebration · Release

ENERGY

Peak power. Maximum illumination. Everything is visible, nothing can hide. Emotions run high. Energy runs higher. This is a time of both celebration and release. Honor how far you've come. Then let go of what's blocking your next level.

YOUR FOCUS

First, celebrate. What wins can you acknowledge? What growth have you experienced? Second, release. What's being illuminated that no longer serves you?

SIMPLE RITUAL

Write what you're releasing on a separate piece of paper. Read it aloud: *'I release what no longer serves me. I make space for what's coming.'* Safely burn it or bury it.

AFFIRMATION

"Let it go. Let it glow."

MOON PHASE

WANING GIBBOUS

Gratitude · Integration · Sharing

ENERGY

The peak has passed. The moon begins to wane, and energy turns inward. This is the harvest phase — time to gather the fruits of your labor and integrate the lessons of this cycle. The Waning Gibbous asks you to practice gratitude and share what you've learned.

YOUR FOCUS

What did this cycle teach you? Don't rush past the lessons — integrate them. Practice gratitude for both the wins and the challenges. Share your wisdom with someone who needs it.

SIMPLE RITUAL

Place your hand on your heart. Say: *'I receive the wisdom of this cycle. I am grateful for every lesson.'* Write three lessons from this cycle. Share one with someone.

AFFIRMATION

"The harvest is in your hands."

MOON PHASE

LAST QUARTER

Forgiveness · Surrender · Closure

ENERGY

Half-lit again, but now moving toward darkness. This is the release phase — time for forgiveness, surrender, and tying up loose ends. What's unfinished? Last Quarter energy can feel heavy if you resist it. But when you lean into release, there's profound freedom on the other side.

YOUR FOCUS

Where do you need to forgive — yourself or others? What conversations need to happen? What projects need to be completed or consciously released? Completion creates space for creation.

SIMPLE RITUAL

Write what you're forgiving on paper. Say: *'I release resentment. I choose peace. I complete this cycle.'* Tear up the paper. Wash your hands with intention.

AFFIRMATION

"Completion creates space for creation."

MOON PHASE

WANING CRESCENT

Rest · Reflection · Renewal

ENERGY

The final sliver of light before the moon goes dark. This is the void — the quiet before rebirth. Energy is at its lowest point, and your body, mind, and spirit are asking for rest. Don't fight it. Your magic regenerates in the dark.

YOUR FOCUS

Rest is not laziness. Sleep is productive. Stillness is sacred. How does your body need to rest? What needs to be quiet so you can hear your intuition? What dreams are trying to come through?

SIMPLE RITUAL

In darkness or candlelight, close your eyes. Whisper: *'I rest without guilt. In stillness, I am reborn.'* Go to bed early. Cancel something unnecessary. Say no to at least one thing.

AFFIRMATION

"In the darkness, seeds germinate."

● April 2, 2026 · Moon in Libra

The Pink Moon in Libra blooms with balance, beauty, and relational harmony. Libra seeks fairness, not martyrdom. Beauty, not perfection. Connection, not codependence. Peace begins within.

YOU WILL NEED

Pink/white candle · Fresh flowers · Two papers & pen

THE RITUAL

- 01 Light a pink or white candle. Arrange fresh flowers nearby.
- 02 Write: 'Where I Give Too Much' on one paper. 'Where I Receive Too Little' on another.
- 03 Hold both papers. Notice which feels heavier.
- 04 Say: *'I honor both giving and receiving.'*
- 05 Choose one action to rebalance: stop over-giving + allow yourself to receive.
- 06 Place your commitment paper beneath the flowers as a living reminder.

● May 1, 2026 · Moon in Scorpio

The Flower Moon in Scorpio is a paradox: bloom and shadow, beauty and depth. Scorpio dives beneath the surface to the roots. This moon wants your truth. What are you hiding? What needs to die so something more authentic can bloom?

YOU WILL NEED

Deep red/black candle · A flower · Fireproof bowl

THE RITUAL

- 01 Light a deep red or black candle in a dark, dimly lit space.
- 02 Hold a flower. Observe its beauty and its impermanence. Say: *'Both are sacred.'*
- 03 Write: 'The Shadow I'm Ready to Face.' Read it aloud. Witness it without judgment.
- 04 Safely burn or shred the paper. Say: *'What was hidden is now released.'*
- 05 Write: 'What Can Now Bloom.' Place it under your flower.
- 06 Say: *'I bloom from my depths. I am whole — shadow and light. I am unleashed.'*

Harvest Moon

Full Moon Ritual

● September 26, 2026 · Moon in Aries

The Harvest Moon in Aries is a warrior's celebration. You didn't just wait for the harvest — you planted it, watered it, protected it. This moon honors your courage, your initiative, your refusal to quit. Claim your victory.

YOU WILL NEED

Red/orange candle · Paper & pen · Carnelian (optional)

THE RITUAL

- 01 Light a red or orange candle with fierce intention. Stand if possible.
- 02 Hand on solar plexus. Say loudly: *'I am a warrior. I am victorious. I claim my power.'*
- 03 Create a Victory List: every battle won this year, big or small.
- 04 Read each victory aloud, stomping your foot or clapping after each.
- 05 Write a victory declaration: *'I, [your name], am victorious because I...'*
- 06 Read it three times, each louder. Blow out the candle like you're blowing out fear.

Affirmation: I am courageous. I am victorious. I honor my warrior spirit.

● October 26, 2026 · Moon in Taurus

The Hunter's Moon in Taurus is about claiming abundance with grounded precision. Taurus doesn't chase; it waits for the right moment, then takes what it needs. What resources do you require? What abundance is yours for the taking?

YOU WILL NEED

Green candle · Coins or bills · Something pleasurable · Pyrite (optional)

THE RITUAL

- 01 Light a green or brown candle. Arrange coins, bills, or abundance symbols around it.
- 02 Touch each item, feeling its texture. Say: *'Abundance is my birthright.'*
- 03 Write: 'The Abundance I'm Hunting.' Read each item: *'I claim this. It is already mine.'*
- 04 Write: 'The Action I'm Taking.' Choose ONE action within 48 hours. Circle it.
- 05 Hold your money symbol. Visualize it multiplying. Feel the weight of abundance.
- 06 Indulge slowly in a pleasure — chocolate, flowers, soft fabric. Receive without guilt.

Affirmation: I am abundant. I claim my wealth with clarity. I receive pleasure without guilt.
