

A Guide for the Modern Mystic

Moon Magic

Quick Start Guide

◆ WELCOME ◆

Welcome, Modern Mystic

The moon has been tracking time longer than any calendar, planner, or productivity app ever will. And for good reason — she's reliable, rhythmic, and she never pushes you to do more than you're energetically built for right now.

Moon magic isn't about crystals or rituals you have to perform perfectly. It's about learning to move with natural energy cycles instead of white-knuckling your way through them. When you align with the moon, you stop fighting yourself.

This guide covers all 8 phases of the lunar cycle — what each one means, how to work with its energy, and a simple ritual you can do right now. Use it as a teaching tool, a journal companion, or a quick reference whenever you need to remember where you are in the cycle.

You already have the magic. This guide just helps you remember.

HOW TO USE THIS GUIDE

Read through each phase. Come back to the one you're in right now. Do the ritual. Journal in the writing box. Keep the cheat sheet (last page) saved to your phone or printed on your desk.

New Moon

BEGIN · SEED · INTEND

The slate is clean. This is the dark of the moon — a pause before the surge. The energy here is quiet and receptive, an invitation to go inward before the world asks anything of you. Plant one clear intention and let it root in the silence before the light returns.

Mini Ritual

- 1 Light a candle or sit in quiet for 2 minutes.
- 2 Write your intention as if it's already true — present tense, no doubt.
- 3 Close with: "I plant this seed. I trust the timing."

What do you want to call in this cycle? Write it as if it's already real.

Waxing Crescent

MOVE · REACH · START

The sliver appears and energy begins to stir. This is the phase of the first step — imperfect, tentative, and necessary. Don't wait until you're ready. The moon doesn't wait to be full before it starts to shine.

Mini Ritual

- 1 Revisit the intention you set at the New Moon.
- 2 Identify ONE small action you can take today.
- 3 Do it before the day ends — no overthinking.

What's one tiny step toward your intention that you've been avoiding? What would it feel like to just do it?

First Quarter

COMMIT · ACT · DECIDE

Half light, half dark — this is the phase of decision and commitment. Resistance shows up here disguised as logic. The question isn't whether you're ready. The question is whether you're willing to move anyway.

Mini Ritual

- 1 Name the resistance: what story is slowing you down?
- 2 Write one decision you've been sitting on — then make it.
- 3 Take a visible action that signals commitment.

Where are you hesitating? What would you do if you weren't afraid of getting it wrong?

Waxing Gibbous

REFINE · TRUST · ADJUST

The moon is almost full and the energy is building — but it's not there yet. This is the phase of refinement, not perfection. You've done the work. Now trust the process, adjust what needs adjusting, and stop trying to force the finish line closer.

Mini Ritual

- 1 Review your progress toward your intention — honestly, not harshly.
- 2 Ask: what needs adjusting vs. what just needs more time?
- 3 Make one refinement. Then let it be.

What's working? What's one thing you can release control over right now?

Full Moon

CELEBRATE · RELEASE · RECEIVE

This is the peak — the most electric, activated night of the cycle. Emotions run high because everything is illuminated. This is the moon that sees all, hides nothing, and asks you to receive what you've called in and release what you no longer need to carry.

Mini Ritual

- 1 Write a list of three things you're grateful for from this cycle.
- 2 Write one thing you're ready to release — then burn it, rip it, or speak it aloud.
- 3 Stand outside (or by a window) and let the moonlight land on you.

What has this cycle shown you about yourself? What are you finally ready to let go of?

Waning Gibbous

SHARE · INTEGRATE · GIVE

The moon begins to pull back and so should you — inward and generous at the same time. This phase is about integration: absorbing what you've learned and sharing what you've been given. Wisdom shared becomes wisdom doubled.

Mini Ritual

- 1 Reflect on what this cycle taught you.
- 2 Share something — a lesson, a win, a resource — with someone who needs it.
- 3 Receive graciously: rest, nourishment, support, a compliment.

What did this full moon reveal? What wisdom are you ready to share or act on?

Last Quarter

RELEASE · CLEAR · FORGIVE

The light is pulling back fast now. This is the clearing phase — where you actively cut what no longer belongs in your life, your energy field, or your mental real estate. Release isn't passive here. It's a decision.

Mini Ritual

- 1 Identify one thing — a habit, a story, a relationship pattern — that needs to go.
- 2 Write it down and consciously choose to release it.
- 3 Clear physical space: a drawer, a folder, a corner. The outer reflects the inner.

What are you ready to stop carrying? What would feel lighter if you just... let it go?

Waning Crescent

REST · RESTORE · SURRENDER

The moon is almost gone and that's the point. This is the most underrated phase in the cycle — the deep exhale before the next beginning. Everything wants to rest here. Your nervous system. Your ambitions. Your to-do list. Honor it.

Mini Ritual

- 1 Cancel or defer one thing on your list that doesn't need to happen right now.
- 2 Do one thing that genuinely restores you — not productive rest. Real rest.
- 3 Set a gentle intention for what you want to feel at the next New Moon.

What do you need more of right now? What are you ready to surrender so the next cycle can begin clean?
